Dear Sir or Madam:

As we have discussed with many stakeholders, we have planned a second Panel Discussion regarding potential future modifications to the California Reformulated Gasoline (CaRFG) Regulations. Also, as part of new commitments made when the Air Resources Board approved the South Coast Air Quality Management District's State Implementation Plan, we must evaluate whether additional emissions reductions can be obtained by modifications to the CaRFG program.

This meeting will allow staff to involve a broad range of stakeholders in our efforts to identify potential revisions to the CaRFG program for further evaluation. Following the panel discussion, members of the general public will have the opportunity to comment. The proposed agenda is attached.

The time and place of the panel discussion are shown below:

Date: September 29, 2004, Wednesday  
Time: 9:00 a.m. to 12:30 p.m.  
Location: California Air Resources Board  
1927 13th Street  
Conference Room MLD-North  
Sacramento, California 95814
