Re: Cancellation of October 10, 2008 Meeting

Dear Sir/Madam:

By this notice, staff of the Air Resources Board (ARB) is cancelling a meeting that was scheduled for October 10, 2008 in Sacramento, California. We had scheduled this meeting to discuss questions and comments on a preliminary analysis previously released on September 9, 2008, which compares the full fuel-cycle Greenhouse Gas (GHG) emissions of compressed natural gas (CNG), liquefied natural gas (LNG), gasoline and diesel. The draft analysis was conducted as part of our effort to develop a Low Carbon Fuel Standard (LCFS) regulation. For your convenience, the preliminary analysis, the underlying assumptions and data sets used in the draft document are available at ARB's LCFS internet site at: <http://www.arb.ca.gov/fuels/lcfs/lcfs.htm>.

Please note that we are continuing to solicit comments on these draft documents through the close of business on Friday, October 24, 2008. If you want to discuss your comments, you can contact me at fvergara@arb.ca.gov or (916) 327-5986. If needed, we may reschedule this meeting to discuss comments received or raised.

I apologize for any inconvenience this may have caused.

Sincerely,

Floyd Vergara, Manager
Industrial Section
