

**Company: Tracy Renewable Energy LLC**  
**California Energy Beet from Tracy, CA to Ethanol**  
**Pathway Code: ETHBE001**

**Other Supporting Documents in support of the TRE pathway application are:**

1. [Energy Beet Farming Data Used in TRE Energy Beet Ethanol LCFS Pathway](#)
  - a. Delta Distiller Beets Trial Plot Data (Confidential Information)
2. [TRE Plan for Manure Data Tracking and Reporting under LCFS](#)
3. Inputs and Results Summary Spreadsheet of calculations performed outside of CA-GREET1.8b (Confidential Information)
4. Combustion equipment list (Confidential Information)
5. Engineering Design Documents (Confidential Information)
  - a. Ethanol Plant inputs & outputs
  - b. Ethanol Plant utility data
  - c. Ethanol Plant effluent data
  - d. Ethanol Plant Optimized Energy Consumption letter
  - e. Digester layout diagram
  - f. Digester scenarios
  - g. Digester Guarantee for biogas production assumption letter
6. [Manure supply affidavit](#)
7. [Green waste supply affidavit](#)
8. [Glycerin supply affidavit](#) (NOTE: The title of this affidavit states, "Manure", but is for glycerin and the body of this affidavit discusses the glycerin supplied to TRE.
9. Digester fugitives and flaring emissions: HSAD Pathway spreadsheet, adapted to 55% methane concentration in biogas. (Confidential Information)
