

Subject: Low Carbon Fuel Standard (LCFS) Innovative Crude Method Application

Pursuant to section 95489(d) of the LCFS Regulation, an innovative crude method application is being released for public comment. The application can be found at <http://www.arb.ca.gov/fuels/lcfs/crude-oil/innovative-crude/innovative-crude.htm>.

Comments will be accepted until August 15, 2016. After closing the comment period, staff will review submitted comments, request that applicants address any substantive issues related to this application and, if satisfactory, move to approve the application.

If you have any questions, please contact James Duffy, Manager, Alternative Fuels Section, at jduffy@arb.ca.gov or (916) 323-0015.

The Low Carbon Fuel Standard, a regulation to reduce the carbon intensity of fuels sold in California ten percent by 2020, is one of the measures adopted by the California Air Resources Board, pursuant to Health and Safety Code Sections 38500-38599 (AB 32) to reduce greenhouse gases in California. It is designed to help clean the air, protect the environment, and drive the development of clean, low-carbon fuels.
