**Edmund G. Brown Jr.**  
Governor

January 11, 2017

Dear Sir or Madam:

The California Air Resources Board staff invites you to participate in an ongoing series of public working meetings to discuss (1) changes to the pathway carbon intensity application and evaluation process, (2) improvements to reporting and credit generation processes, and (3) the integration of third-party verification requirements under the Low Carbon Fuel Standard. The next three meetings will be focused on:

- Starch ethanol,
- Co-processing of biogenic feedstocks at conventional petroleum refineries, and
- Biodiesel and renewable diesel.

Today's notice is intended to confirm the dates, provide the time and locations, and instructions on how to participate (in-person, over the phone, or webcast). Discussion papers and other materials for review will be posted at [http://www.arb.ca.gov/fuels/lcfs/lcfs\\_meetings/lcfs\\_meetings.htm](http://www.arb.ca.gov/fuels/lcfs/lcfs_meetings/lcfs_meetings.htm)

Additional meetings to address other fuel types will be scheduled at a later date. The meetings will be held at the California Environmental Protection Agency Headquarters Building and broadcast as a webcast. For more information on meeting times and locations, please refer to the attachment.

If you choose to participate via webcast, you will be able to listen and view the presentations. Since you will not be able to participate using a microphone, you must use the call-in information provided in the meeting notice if you wish to make a comment or ask a question. You may also provide your questions to us via email if participating via webcast.

If you require a special accommodation for the scheduled event/meeting or need this document in an alternate format (e.g. Braille, large print) or another language, please contact Mr. Valentine Montoya; at (916) 324-0428 or [Valentine.Montoya@arb.ca.gov](mailto:Valentine.Montoya@arb.ca.gov) as soon as possible. TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.*

We welcome and encourage your participation in this effort. If you have questions about the webinar series, please contact Mr. Jim Aguila, Chief, Climate Change Program Planning and Management Branch, at (916) 322-8283 or via email at [Jim.Aguila@arb.ca.gov](mailto:Jim.Aguila@arb.ca.gov), or Mr. Sam Wade, Chief, Transportation Fuels Branch, at (916) 322-8263 or via email at [Samuel.Wade@arb.ca.gov](mailto:Samuel.Wade@arb.ca.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Jim Aguila".

Jim Aguila, Chief  
Climate Change Program Planning  
and Management Branch

Enclosure

cc: Sam Wade, Chief  
Transportation Fuels Branch

**California Air Resources Board  
Low Carbon Fuel Standard Workgroup Meetings**

**Sierra Hearing Room, 2nd Floor**

**California Environmental Protection Agency Headquarters Building  
1001 "I" Street  
Sacramento, California 95814**

**Draft Agenda**

- Welcome and Introductions
  - Open Discussion Based on
    - Topics From Each Fuel-Specific Discussion Paper (Ethanol, Biodiesel/Renewable Diesel)
      - Fuel Pathway Evaluation Process
      - Reporting Requirements
      - Verification
- Or
- Topics for Co-Processing
    - Quantifying renewable fuel volumes from co-processing
    - Life-Cycle Analysis approaches to estimate carbon intensities of renewable fractions from co-processing biogenic feedstocks
    - Monitoring and verification of production, transport and use of co-processed fuels in California
- Next Steps
- Thank You
