

## **Vincent Camobreco, U. S. EPA**

Since 2006 Mr. Camobreco has worked in the U.S. EPA's Transportation and Climate Division, his main focus being on the life cycle GHG impacts of renewable and alternative fuels. Prior to that he worked on EPA's Climate Leaders program, helping develop protocols to calculate and report corporate greenhouse gas inventories to the EPA.

Mr. Camobreco's previous work experience includes over five years as an environmental consultant with Ecobalance, Inc. doing life cycle analysis for numerous industry and government clients, and several years working for an automotive parts supplier producing steering columns.

His education includes a Bachelor of Science in Mechanical Engineering from Clarkson University and a Masters of Engineering in Agricultural and Biological Engineering from Cornell University.
