August 6, 2010

Dear Sir or Madam:

The California Air Resources Board (ARB/Board) staff invites you to attend the fifth meeting of the Low Carbon Fuel Standard (LCFS) Expert Workgroup. The LCFS regulation was approved by the Board at its hearing on April 23, 2009. At that hearing, the Board adopted Resolution 09-31, directing staff to convene an expert workgroup to assist the Board in refining and improving the land use and indirect effects analysis of transportation fuels.

During this meeting of the workgroup, the Co-product Credits, Land Cover Types, and Emission Factors subgroups will present interim reports on subgroup activities. Enclosed is a tentative agenda. Drafts of documents, as appropriate, will be available prior to the workshop at <http://www.arb.ca.gov/fuels/lcfs/workgroups/ewg/expertworkgroup.htm>.

The meeting will be held at the following time and location:

DATE: Tuesday, August 17, 2010
TIME: 8:30 a.m. to 5:00 p.m., PDT
LOCATION: Conference Room 550, Fifth Floor
ADDRESS: Cal/EPA Headquarters Building
1001 I Street
Sacramento, California 95814

Directions to Cal/EPA Headquarters and public transit information can be found at the California Environmental Protection Agency's website at <http://www.calepa.ca.gov/epabldg/location.htm>.

Pursuant to the Bagley-Keene Open Meeting Act, several Expert Workgroup members will attend the meeting via teleconference from the locations as noted below, which are accessible to the public. However, the facilities at these locations may require advance approval or have other procedures for public access. If you wish to attend at one of these locations, please contact the relevant workgroup member to determine any specific public access procedures for that location at least one business day before the meeting.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
