October 25, 2010

Dear Sir or Madam:

The staff of the California Air Resources Board (ARB/Board) invites interested parties to attend the eighth meeting of the Low Carbon Fuel Standard (LCFS) Expert Workgroup. The LCFS regulation was approved by the Board at the April 23, 2009, Board hearing. At that hearing, the Board also adopted Resolution 09-31 directing staff to convene an expert workgroup to assist the Board in refining and improving the land use and indirect effects analysis of transportation fuels.

During this meeting of the workgroup, final recommendations from the subgroups will be discussed. Enclosed is a tentative agenda. Drafts of documents, as appropriate, will be available prior to the workshop at <http://www.arb.ca.gov/fuels/lcfs/workgroups/ewg/expertworkgroup.htm>.

The meeting will be held at the following time and location:

DATE: Friday, November 5, 2010  
TIME: 8:30 a.m. to 5:00 p.m.  
LOCATION: Coastal Hearing Room, Second Floor  
ADDRESS: Cal/EPA Headquarters Building  
1001 "I" Street  
Sacramento, California 95814

Directions to Cal/EPA Headquarters building, public transit information, and parking information can be found at the California Environmental Protection Agency's website at <http://www.calepa.ca.gov/epabldg/location.htm>.

Pursuant to the Bagley-Keene Open Meeting Act, several Expert Workgroup members will attend the meeting via teleconference from the locations as noted below, which are accessible to the public. However, the facilities at these locations may require advance approval or have other procedures for public access. If you wish to attend at one of these locations, please contact the relevant workgroup member to determine any specific public access procedures for that location at least one business day before the meeting.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.*
