

Purpose of the Feedstock Matrix

- Help us prioritize feedstocks for sustainability analysis
- Action item from last meeting

1

Modifications to Original Matrix

- Original matrix developed by CBC with input from CalFire
- Arranged by estimated market appearance
- Estimated volumes of fuel based on the Western Governors' Association Report
 - Feedstock volumes do not represent alt. fuel volumes
 - Feedstock volumes do not reflect CA alt. fuel needs

2

Approach for Analysis

- Work through each feedstock/fuel combination looking at all criteria
- Work through each of the criteria looking at all feedstock/fuel combinations
- Foreign versus domestic
- Food versus energy (in the ag sector)
- By end product
- Other ideas?
