Subject: Comments On Framework For Action For The Goods Movement Action Plan

Noel Park wrote:

While I realize that yesterday was the deadline for comments, I believe that two items on page C-1 of the Business section of today's Los Angeles Times are critically important to any such planning.

I refer to "Rift May Grow With China Trade Surplus", and Michael Hiltzik's column "A Lesson in Political Math From the Governor".

I request that these two items be incorporated into the public record of this planning effort.
