Subject: Air Toxics Program
Comment:

My name is Robina Suwol and I am the executive director of California Safe Schools, a children's environmental health and environmental justice coalition founded in 1998.

We appreciate the speakers and dedicated efforts made by the Chair, Boardmembers, staff and especially Deldi Reyes presentation made today.

We would like to stress the importance of CARB continuing to identify the types of stationery sources with public health concerns that have been excluded from criteria pollutants and toxic emissions and bring the program up to date surrounding toxics released today not just a list created 20 years ago.

We have previously tested requesting Pesticides please be included, and we again are requesting again that they be added. We also request the phase out of Chrome 6 and Formaldehyde, and to develop tools to evaluate and mitigate cumulative impacts. Thank you.

Subject: AB617 Grants
Comment:

There are a significant number of communities who according to AB 617 criteria would be eligible for funding under the program, but do not have the experience or resources to retain professionals to assist them with these grants. I would greatly appreciate if CARB will designate a team of CARB staff to assist in writing and implementing the grants. Thank you for your consideration.
