Subject: Fontana Air Control !!something must be dont!!

Comment:

Words can't even describe the type of nazis that you "people"(or so you call yourselves) are. Sure, lets just take away the fontana race track and bring out all the stupid street racers back out on the public highways and streets but hey who cares, at least we can breath "beautiful fresh air". I don't think there is even one person that you can show to the public that was directly killed by this so-called "air pollution". Every single night I bet I can show you and your board of directors a very mangled up body of someone who was either street racing or got killed by a street racer while on their way home to put their children to sleep. Give the people back their track and who cares about the stupid politicians who think they look good by claiming that they want to help the air pollution. Pleeese people, who the hell are they joking.
