Subject: A Request to Rectify California Clean Vehicle Rebate Project Delays  
Comment:

Hello, I purchased a clean air vehicle in February 2021 after applying for the CVRP. The dealership was unable to help me since the state had not yet processed my application. In fact, my application was only finalized today. So, today, I found out that the vehicle I purchased, a 2020 Hyundai Ioniq PHEV, was no longer eligible for the rebate. I would like to request that, due to the backlog of applications, those who purchased a vehicle in 2021 before the April 1st eligibility changes, be grandfathered into the program in some way. Thank you so very much for considering this request that will help people who were striving to start driving better receive rebates they were expecting at the time of their application and purchase.  
Peace, Rev. Dr. Seth David Clark
