Subject: Proposed Off Road Diesel Regulations
Comment:

Dear Sirs,

Per our attached letter of March 19, we would like to have you consider the serious financial hardship of these proposed new regulations on small equipment rental and construction business. We do not all have the resources and financial backing of companies the size of United Rentals or Yeager/Skansa Construction. By making these regulations attainable by small business in the state you will achieve a higher compliance rate. Many small businesses will not be able to comply with new rules that are financially out of their reach. Please consider this before you reach a decision on this very important matter.
