Subject: The need for regulation and incentives for small portable generators

Comment:

Please reference ONYX Power LLC's position brief, The Big Problem with Small Generators, for why air regulations and incentives on small portable generators is critical for improving air quality in communities in California.

Subject: San Bernardino/Muscoy Air Initiatives - meeting #10

Comment:

Attending the San Bernardino, Muscoy Community Steering Committee meeting #10 the slide "What is not covered" Pick up trucks and other personal vehicles are excluded.

Pickup trucks and personal vehicles contribute 25 to 38% of GHG's including NOx's to air quality in the San Bernardino area. That percentage is considerably higher during peak driving times.

What I would like addressed is why are pickup trucks and personal vehicles excluded if technologies exist to address is impact? Thank you.
