Subject: Public Meeting to Consider the San Joaquin Valley 70 ppb Ozone State Implementation Plan

Comment:

The uploaded file conveys The Western States Petroleum Association's (WSPA) recommendation that the California Air Resources Board adopt the San Joaquin Valley Air Pollution Control District's San Joaquin Valley 2022 State Implementation Plan (SIP) for the 70 parts per billion (ppb) 8-hour ozone standard (San Joaquin Valley 70 ppb Ozone SIP) along with the aggregate emission reduction commitment identified in the accompanying California Air Resources Board (CARB) Staff Report. We appreciate CARB's consideration of our comments.
