Subject: Stop Public Funding For Factory Farm Gas

Comment:

Biogas is unsustainable and unnecessary--it does not reduce the dairy industry's environmental footprint. In fact, investing in biogas helps maintain and expand factory farms. Investing in biogas means investing in even more factory farm pollution.

Comment:

California is greenwashing factory farming.

California has more industrial dairies than any other state, polluting our rivers, depleting our groundwater, and emitting disastrous greenhouse gasses.

Biogas is unsustainable and unnecessary--it does not reduce the dairy industry's environmental footprint. In fact, investing in biogas helps maintain and expand factory farms. Investing in biogas means investing in even more factory farm pollution.

Comment:

Biogas is unsustainable and unnecessary. It does not reduce the dairy industry's environmental footprint. In fact, investing in biogas helps maintain and expand factory farms.

California has more industrial dairies than any other state, polluting our rivers, depleting our groundwater, and emitting disastrous greenhouse gasses. Now, factory farm polluters claim they are environmentally friendly because they produce "biogas." Even worse, they are using our tax dollars to fund this harmful greenwashing.

Investing in biogas means investing in even more factory farm pollution.

California is greenwashing factory farming.

California has more industrial dairies than any other state, polluting our rivers, depleting our groundwater, and emitting disastrous greenhouse gasses. Now, factory farm polluters claim they are environmentally friendly because they produce "biogas." Even worse, they are using our tax dollars to fund this harmful greenwashing.

I plead to California regulators to stop investing in factory farm gas!

Biogas is unsustainable and unnecessary--it does not reduce the dairy industry's environmental footprint. In fact, investing in biogas helps maintain and expand factory farms. Investing in biogas means investing in even more factory farm pollution.

This year, the California Air Resources Board (CARB) has the opportunity to adopt new rules that would stop rewarding factory farms for their pollution. California Governor Newsom and the California Air Resources Board (CARB) I am asking you to end current Low Carbon Fuel Standard (LCFS) policies that reward factory farm polluters!
