

**Comment 1 for Electrify America's proposed Cycle 3 ZEV Investment Plan  
(vw-zevinvest-c3bd-ws) - 1st Workshop.**

First Name: Martin

Last Name: Browne

Email Address: [mbrowne@cityofwhittier.org](mailto:mbrowne@cityofwhittier.org)

Affiliation: City of Whittier

Subject: Infrastructure for Local Cities

Comment:

Hello, I work at the City of Whittier in the transit section and CARB rules are changing over the next few years and I will be needing to purchase 100% electric transit vehicles for my City's Dial-A-Ride fleet. We currently do not have any electric transit vehicles. I would just like to ensure that some of this VW money finds its way directly to local cities with small transit fleets under 20 vehicles. We will need to purchase and install electric charging infrastructure in the next few years and this is an ideal source of funds. However in LA County, we are always competing with the large operators like Metro, Access Services, Big Blue Bus and Foothill transit. I feel this VW funding source should be accessible for small cities needing to start the electrification of their fleets so I am advocating for direct funding for small transit operators. Thank you.

Subject: Funding For Local Operators

Comment:

In Los Angeles County there are over 40 local operators that are struggling to adapt quickly to the ICT mandate. We are excited to participate and be a part of the goal to zero emissions however, the market has only began to provide ZEV options for smaller agencies running dial-a-ride services. The limited ZEV options has slowed us down in quickly participating and has limited us to time sensitive grant opportunities that are asking for immediate implementation. Please help us to secure funding for ICT mandated smaller Dial-a-ride ZEV's and infrastructure.

## **Comment 3 for Electrify America's proposed Cycle 3 ZEV Investment Plan (vw-zevinvest-c3bd-ws) - 1st Workshop.**

First Name: Maureen

Last Name: Blanc

Email Address: [maureen@chargeacrosstown.org](mailto:maureen@chargeacrosstown.org)

Affiliation: CHARGE ACROSS TOWN

Subject: EA's Cycle E ZEV Investment Plan

Comment:

Charge Across Town has participated in Electrify America's Cycle 1 and Cycle 2 Investment Plan, as recipients of funding towards experiential electric vehicle ride and drive events for low income and disadvantaged communities. EA's funding has allowed us to expand our work to portions of California that are most impacted by pollution and environmental degradation, poor air quality and health issues. Thanks to Electrify America's early support of these programs, Charge Across Town has been able to help people get rid of dirty, unsafe combustion engine vehicles and replace their cars with clean, plug in electric cars. By hosting ride and drives at community events throughout the central valley, and working with local news and used EV car dealerships, we have demonstrated that electric cars are safe, affordable and a great choice for every lifestyle. Additionally, we have collected survey data from 2018-2020 tracking EV attitudes and behavior change. In 2020 during the pandemic, when all in person events were put on hold, Electric America championed a virtual approach to ride and drives, where we created multi-lingual videos depicting all aspects of EVs and the driving experience. The video series has continued in 2021 as we ramp up later in the year for in-person events.

Without Electrify America's funding and ongoing support for our efforts, Charge Across Town would be unable to provide an "EVs for Equity" program in the central valley as well as the Bay Area. We look forward to participating in EA's Cycle 3 outreach and educational programs for low income and disadvantaged communities.

Last Name: Holland

Email Address: [brian@sharedusemobilitycenter.org](mailto:brian@sharedusemobilitycenter.org)

Affiliation:

Subject: Support for Electrify America Green City Investment

Comment:

I am writing to express our support for Electrify America's Green City proposal contained in its draft ZEV Investment Plan. Shared Use Mobility Center (SUMC) promotes clean, multi-modal transportation solutions that can address environmental injustices.

Electrifying transit buses is a key opportunity for meeting social and environmental goals, and fast charging remains a barrier for transit electrification. This investment, in a community that has for too long borne the brunt of transportation pollution, would be a positive step forward - and one that we hope CARB will continue to build upon in pursuit of the State's climate goals and social justice imperatives.

Thank you for your consideration and best regards,  
Brian Holland  
California Program Director

Subject: Cycle 3 Investment support

Comment:

The plan submitted by Electrify America will build on the momentum that is taking place in California. Providing more charging infrastructure across the state will continue to accelerate the adoption of electric vehicles in the state. The expansion to include transit as well as medium to heavy-duty charging will also accelerate the adoption in those growing sectors. As more medium and heavy-duty vehicles start delivery later this year, Black & Veatch is seeing a lot of demand for the charging infrastructure to support those fleets.

Subject: SJVEVP Supports the Cycle 3 ZEV Investment Plan

Comment:

The SJVCCC and its working group the SJVEVP notes that the past performance of Electrify America has exceeded several of the goals and strategies set forth in the Cycle 1 and Cycle 2 investment plans. The expansion and addition of efforts in the San Joaquin Valley included in the Cycle 3 plan will enhance our efforts to grow the market for EVs, which we know will improve air quality in disadvantaged, rural communities and extend health benefits to ALL of our citizens.
