Subject: Where can I view the draft plan?

Comment:

Where is the draft plan for which CARB is seeking public comment? I do not see any links to it on the web. Thanks.

Subject: Comments on the November 2 CALAND and COMET results

Comment:

Dear NWL team,

As noted in the attached document, there are some very large discrepancies between the presented results and what has already been presented in the state's Forest Carbon Plan (May 2018). These issues need to be addressed before any new emissions inventory and future plans for forests and other natural and working lands are officially adopted
