## RESOLUTION

INFORMATION TECH. &amp; GOVT. AFFAIRS

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations, or policies proposed to or pending before a local, state, or federal governmental body or agency must first have been adopted in the form of a Resolution by the City Council with the concurrence of the Mayor; and

WHEREAS, the California legislature passed SB 375 in 2008 which establishes a process to set regional targets for reducing greenhouse gas emissions, and ensures that cities and counties are involved in the development of these targets and reasonable measures to meet these targets; and

WHEREAS, SB 375 was designed to be a key step in efforts to implement AB 32, the State's landmark climate change legislation; and

WHEREAS, SB 375 includes important CEQA streamlining incentives and revisions to housing element law that rationalize regional housing and transportation planning; and

WHEREAS, a Resolution has been submitted for consideration at the annual League of California Cities conference in San Diego, California, beginning September 15, 2010, that would make it the policy of the League to support efforts to delay implementation of SB 375 and AB 32; and

WHEREAS, the City of Los Angeles has historically taken a strong position that every effort must be made to address climate change and to implement reasonable measures at the local level to reduce greenhouse gas emissions.

NOW THEREFORE BE IT RESOLVED, with the concurrence of the Mayor, that by the adoption of this Resolution, the City of Los Angeles hereby includes in its 2009-2010 State Legislative Program, OPPOSITION to efforts at the annual League of California Cities conference to suspend implementation of SB 375, which sets regional targets for the reduction of greenhouse gas emissions.

**ADOPTED**
