

# AB 118 AQIP

## South Coast AQMD Staff Comments

Matt Miyasato, Ph.D.

Assistant Deputy Executive Officer

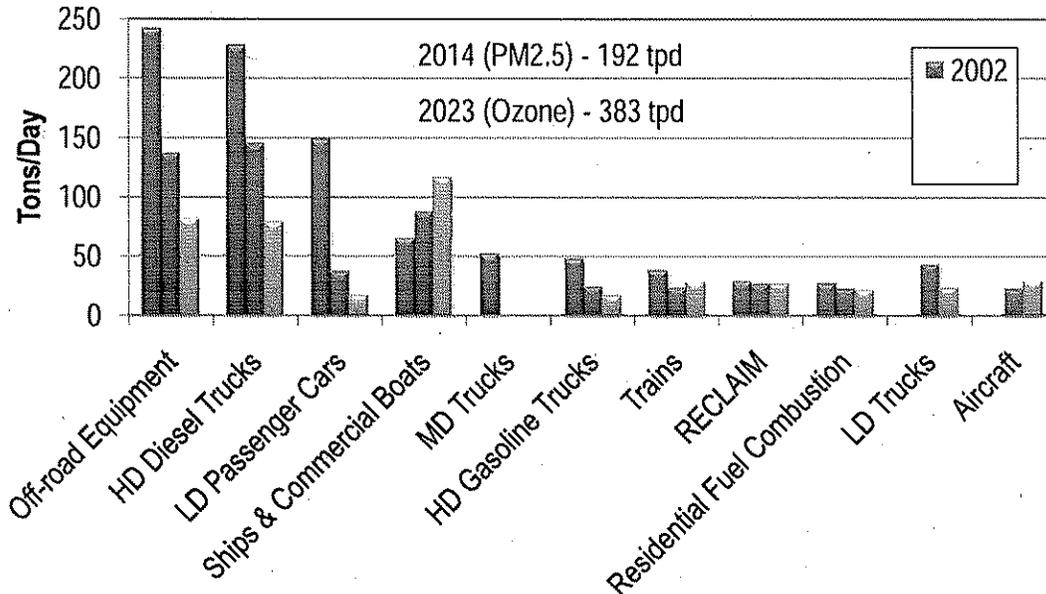

South Coast Air Quality Management District

### Air Quality Improvement Program

- Overall supportive of program and goal of flexibility
- "The primary purpose of the program shall be to fund projects to reduce criteria pollutants, improve air quality, and provide funding for research ..."  
[HSC 44274(a)]
- "focusing AQIP funding in areas that do not already have a significant source of incentive funding"  
[ISOR, pg 4]

*Integrated review of incentive programs to identify  
in practice technologies that can be funded*

# NOx by Category

## Other Recommendations

- A. Funding Plan (Section 2353)
  - Fund the cleanest technologies, e.g., 2010 compliant trucks
  - *Cleanest technology should receive higher priority*
- Include a requirement to address Environmental Justice as part of the Guidelines

"Where applicable, the Funding Plan ~~would~~ *shall* discuss which projects have focused benefits in local communities *and provide higher priority to projects in EJ areas.*"[ISOR, pg 11]
