

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Celeste McSpadden

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Mrs. April Ewaskey

(818) 400-7546

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Wendy Walwyn

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

In general, I am against cap and trade agreements, or allowing mitigation of greenhouse gasses. We are way too far into global warming to play games with emissions and must now make serious efforts to curb these gasses right away. The point is to develop new forms of energy that are sustainable, not to make reasons for companies to continue to pollute.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Margaret Tompkins

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Colleen Evans
1063 Swanston Dr
Sacramento, CA 95818

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Cheryl Parkins

Adrienne Vasey
1525 White Birch Terrace, Apt 315
Fremont, CA 94536

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

I grew up in Washington state where the beautiful forests of my youth are largely gone, due to the rampant rape and pillage of the logging companies. I can see absolutely no occasion where I think clear cutting should be allowed. Not one.

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

The cap-and-trade program should not allow (let alone encourage) clearcutting.

In fact, as a state we hardly do enough to protect our forests, even our urban forests.

So what the center for biological diversity says seems very reasonable to me:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

TORRANCE, CA 90501

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Sue Becker

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. This rule makes a complete FARCE of the CA Voter's NO on Prop 23 vote. The voters did not vote for sham environmental protection or to allow Teexas oil companies to emit more and offset it by clearcutting or our forest. Clearly undue political pressure on you and the Board is evident. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dan Lorimer

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Cher président Nichols et les membres du California Air Resources Board:

Tel que proposé, l'AB de régulation 32 de plafonnement et d'échange menace les forêts de la Californie et la faune qui en dépendent. Je vous écris pour vous demander de modifier la règle proposée de plafonnement et d'échange pour:

- 1) excluent des décalages de projets de gestion forestière qui permettent des coupes à blanc, et
- 2) éliminer l'exemption des obligations de conformité pour les émissions de la biomasse forestière.

Je vous implore de ne pas faire des coupes à blanc des forêts et la biomasse de la face AB 32. Nous ne pouvons pas et ne devrait pas essayer de coupe à blanc et brûler notre chemin pour sortir du changement climatique.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Kate Karriker-Jaffe

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Andrea bartha

Ms. Julia Barfield
294 Carl Street
San Francisco, CA 94117

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation increases California's impacts on climate change since burning biomass is as bad or worse than burning coal. Of course, forests and the wildlife that rely on them are also further threatened. Additionally the brush that typically dominates clear cut regrowth becomes another costly fire hazard for the state. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

Making forest clearcuts and biomass plants the face of AB 32 is not a good choice for reducing air pollution. Please do the people of California and the world a favor and remove these aspects of cap-and-trade from the AB32.

Sincerely,
Linda Hughes

Dear Chair Nichols and members of the California Air Resources Board:

As someone who has been involved in both sustainable forestry issues, efforts in support of clean air and alternative approaches to reducing the impacts on California's environment, I am horrified that you would be considering the AB 32 cap-and-trade regulation as proposed. It is a clear threat to California's forests while not offering an effective solution to the climate impacts it is supposed to address. I strongly urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

Please don't to allow forest clearcuts and biomass power plants under AB 32. Clearcutting forests and burning the wood is no way to deal with climate change and should not be part of California's public policies.

David Eisenberg
2702 E Seneca St.
Tucson, AZ 85716

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Who should pay for the damage to our environment? Is it the major polluters or Californians and their future generations. I have been proud of the environmental progress that California has made, leading the way to renewable energy. I pay my taxes to see that our governmental regulatory agencies do a good job of protecting us from big business and their profits over anything else. Now do your job, protect us from tree burning power plants and all environmental polluters.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Pat Barbutti

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you NOT to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Mary Hicklin

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Amanda Sousa

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

The AB 32 cap-and-trade regulation, as proposed, threatens California's forests and indigenous wildlife. I urge you to amend the proposed cap-and-trade rule to exclude offsets from forest management projects that allow forest clear cutting, and to eliminate the exemption from compliance obligations for forest biomass emissions. Forest clear cuts and biomass plants can not become the face of AB 32. We cannot and should not try to clear cut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Eric Thein

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

victoria monteleone
1431 n grove ave
upland, CA 91786

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

Biomass combustion in itself does not reduce the pace of greenhouse gas emissions. It simply substitutes combustion of biocarbon for combustion of fossil carbon. Schemes for such substitution do nothing to abate greenhouse gas emissions or abate climate change or otherwise achieve the goals of AB32. Such schemes should not enjoy any preference in any regulation that allegedly implements AB32.

Unfortunately, the proposed cap-and-trade regulation that allegedly implements AB32 not only does not do that but indeed threatens California's forests and the wildlife that rely on them.

I urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore - and would warn - CARB not to seek to use AB32 as an excuse to sabotage the very objectives of AB32!

Clearcuts and burning of biomass will promote, not inhibit, climate change.

Dr. Joseph Weinstein

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Marcella Hammond

Santa Clara, CA 95050

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Jerry Schneider

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change. Our forests are LIVING ECOSYSTEMS that protect us and all of Earth's other inhabitants by trapping carbon and producing oxygen. We must protect our forests and find other, cleaner ways to produce energy for our burgeoning human population and to use other more sustainable materials to fill our increasingly insatiable demands. Our forests **MUST** be protected from clearcutting and all other exploitation.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

sian Felsovanyi

Mary Nichols and Air Resources Board members:

Please change ARB's proposed AB 32 cap-and-trade regulation to take away the menace it poses for the state's wildlife and forests. We can't clearcut our way to climate protection. Here are changes I'd recommend:

- 1) no offsets from forest clearcutting, and
- 2) no exempting biomass from emissions compliance.

Clearcutting and biomass plants will vitiate the credibility of AB 32 and ARB. .Please don't allow this.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Luke Breit

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Michael Ballot
5149 Gadwall Cir.
Stockton, CA 95207

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

For many years in the 80s and 90s I served as State Forestry Coordinator for the California Native Plant Society, whose mission is the preservation of California's unique native flora. During that time I became painfully aware of the damage to wildlife and other critical resources from the practice of clear-cutting our native forests.

Now I understand that the proposed AB 32 cap-and-trade regulation would threaten California's forests and the wildlife that rely on them as a short-sighted means of reducing carbon emissions.. Reducing carbon emissions is indeed important for slowing global warming, but this proposal would be "throwing the baby out with the bath water." I am therefore writing to urge you to amend the proposed cap-and-trade rule as follows:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clear-cutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

We cannot, we must not have environmental policies which encourage the clearcut logging of California's forests and which increase overall greenhouse gas emissions. We cannot, we must not allow industrial polluters to avoid greenhouse gas emission limits by burning forest 'biomass' -- including whole, live trees. California's forests sequester great quantities of carbon in addition to providing a home for wildlife and a draw for tourists and their dollars.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change. A cap-and-trade policy which allows offsets for clear-cutting and forest 'biomass' emissions is the antithesis of what AB 32 means to California and the world.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Please, please, please, ALLOW NO CLEARCUTTING!

Thank you.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

Before I get into the details, may I remind you that the city of Los Angeles has been regulated by the Southern Calif. Environmental Protection Agency to go green by 2020. Los Angeles is the 2nd largest city in the United States. L.A. owns the nation's largest public utility, the Department of Water and Power (DWP). L.A. has in the past emitted copious amounts of carbon dioxide. And this city is now changing over! I have been attending the DWP meetings in order to follow and to participate in the public conversation about the Integrated Resources Proposal being developed by the DWP now. We, the citizens of L.A. will divest ourselves of the coal burning energy we purchase from Arizona and Utah especially as Arizona owns the two worst polluting coal burning plants in the country. Los Angeles will have wind and solar energy plus environmentally secured water from the ocean used to cool the green facilities' energy as needed. And we Angelenos have insisted that the ecology along side the building of our green infrastructure remains intact and properly nourished.

If the city of Los Angeles can actively and respectfully participate in the green movement, I know the rest of California can do the same. **WE DO NOT WANT TO CLEARCUT OUR STATE FORESTS AND EXPECIALLY OUR SEQUOIAS AND REDWOODS.** Los Angeles is forcefully demonstrating this point. This clearcutting proposal of our forests allows logging companies to do business as usual, which Californians do not want to do. Cap and trade credits for destroying our forests and animals therein is a vile, undesirable, and wrong answer to climate change. **WE WANT OUR FORESTS AND OUR WILDLIFE!!!** --- And we vote as amply demonstrated in the last November elections!

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) EXCLUDE offsets from forest management projects that allow forest clearcutting, and
- 2) ELIMINATE the exemption from compliance obligations for forest biomass emissions.

Please do not to make forest clearcuts and biomass plants the face of AB 32. The citizens of California will not tolerate clearcutting and burning our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Fullerton, CA 92835-1617

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

My family and I are deeply concerned that, once again, industrial polluters are attempting to get around actually doing something about polluting by purchasing "offset credits" that in reality do NOTHING to put an end to their greenhouse gas emissions. As it is currently proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. We want you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

We strongly insist that you not make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change. The results of clearcutting and the use of tree-burning plants would result in the exact opposite of cleaning up pollution and fighting global warming. Don't let the insanity continue.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dan Melius
Po Box 946
Penn Valley, CA 95946

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

I am concerned with the proposed AB 32 cap-and-trade regulation regarding its allowance of "offsets" that include forestry land that maintains poor logging practices. This threatens California's forests, its wildlife and undermines the intent of the AB 32 legislation. Clearcutting a forest leads to increased emissions while decreasing the planet's ability to cycle CO2 out of the atmosphere.

I request and urge that you:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) allow only projects that are compliant with FSC (Forest Stewardship Council) regulations, and
- 3) eliminate the exemption from compliance obligations for forest biomass emissions.

Thank you,

Oliver Bollmann

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Ms. Julie Ostoich
3330 Kordes Way

- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Besides, clearcutting increases pollutants, it doesn't decrease them. It results in less oxygen produced by the lost trees; soil runoff pollutes rivers; roads, vehicles and mills used to transport and process the timber will increase pollution; clearcutting can affect local climate with increased temperatures and altered rainfall. Finally, clearcutting not only destroys the natural habitat of numerous forms of wildlife but also reduces areas available for recreation.

Clearcutting is NOT the answer.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Victor Carmichael

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

John Reilly

Just wow on this one. Offsets on forest management and exemptions from compliance? Even considering this clearly shows that you are hateful toward God, because you hate the forests, the animals, our children, and anything that breathes oxygen. Approving these exemptions and offsets will clearly show that you are doing Satan's work. Now, that is fine. But now you can not pretend that you are working for anybody but Satan. Have a nice eternity. Good luck with that.

- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Angela Martinez
600 E. Weddell DR. #263
Sunnyvale, CA 94089

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the people and wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

The forests hold a major key to solving climate change, especially old forests whose trees and surrounding vegetation sequester the most carbon. This has been scientifically proven.

Please protect the forests for our children and our children's children. Once they are gone, they are gone. Only you can save them and leave a positive legacy. Thank you for your leadership!

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change. There are better ways to reduce our air pollution and save our planet which are not economically damaging. The sun shines on California most of the year, we should focus on being leaders in solar energy use instead of cutting down our historic forests for biomass. Planting tree farms is great in practice but that kind of monoculture can never recreate the lost biodiversity of a wild forest. Please reconsider. Thank you.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As a California citizen and small business person, I'm delighted that rules for cap-and-trade in California under our beloved AB 32 are finally being written. However, as proposed, these regulations threaten California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

Trying to clearcut and burn our way out of climate change is like trying to eat our way out of obesity. By vigorously defeating Prop. 23, Californians sent a message loud and clear that they want to give AB 32 a chance to work. Please take that strong mandate and deliver us cleaner air and greener forests, not clearcuts!

Thanks for listening.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Douglas Shepard

2047 Norse Dr. #76
Pleasant Hill, CA 94523

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Karen Larson

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

William Lundeen

Re: Proposed cap-and-trade rule

Dear Chair Nichols and members of the California Air Resources Board:

The proposed cap and trade rule that allows clear cutting to be rewarded with carbon offsetting credits will encourage the cutting of forest land. Since the 2007 Intergovernmental Panel on Climate Change declared that loss of forest was one of three major causes of global warming we need to prevent the wholesale destruction of forests. Converting them to tree farms also curtail the diversity of plant life.

Clear cuts should not be exempt from carbon accounting. The burning the woodland products releases vast quantities of CO₂ and should not be exempt from AB 32.

Global warming is a disaster on a world wide scale. Stop giving powerful polluting industries a free pass.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Robin Putney

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

Cap and trade allows big business to pretend to reduce emissions while they increase them. we need a carbon tax. this is what sweden has: they report a 40% growth rate and they have reduced their emissions to 8% below the 1990 levels. carbon tax is the only thing that gets business to reduce emissions truly. cap and trade only puts harm on the real landlords in the pristine areas.

i urge you to change the cap and trade idea to carbon tax. every forest is an essential part of global climate change remediation. no more clearcuts; no more monoculture tree plantations.

thank you

Dear Chair Nichols and members of the California Air Resources Board:

AB 32, with its indirect subsidizing of clearcuts and unsustainable logging practices by allowing them to get carbon credits sounds like a dream come true for all these corporations that come in and devastate our forests. And by clearcut, I mean any forest "managment" technique that looks like a nuclear blast sight. Logging can be done properly, and forests can be restored, but current techniques are setting the forests back thousands of years. These corporations need to be kicked out of our forests, not encouraged.

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Ms. Dian Griffith
PO Box 533
Redway, CA 95560

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change. Trees and forests are essential not only for clean air and ABSORBING carbon from the air but for water filtration and soil water conservation. They cool the planet. It is completely short sighted and absurd to allow clearcutting as a climate change strategy.

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to AMEND the proposed cap-and-trade rule to:

- 1) EXCLUDE offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

Thank you,

Judy Schriebman

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and California Air Resources Board Members:

Cap-and-trade is not the method to curb greenhouse gas--it is an extremely small band-aid on a problem that has gone too far, too fast. We need much stricter regulations on carbon dioxide emissions that will reduce our output far more rapidly than cap-and-trade can do.

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. It is extremely important that you amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, or other forms of forest clearing and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change. It is critical that the cap-and-trade rule DOES NOT encourage logging of natural forests, nor their replacement by tree plantations. Our state's efforts to fight global warming must work in tandem with forest and wildlife protection, not against it.

Sincerely,

Andrea Quong

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Ms. Liz Johnson
908 Fillmore
Albany, CA 94706

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them.

The program would allow industrial polluters to avoid reducing their own greenhouse gas emissions by purchasing carbon "offset credits" -- many of which could come from forest management projects that allow clearcutting. The proposal would also allow industrial polluters to avoid greenhouse gas emissions limits by burning forest "biomass" -- including whole, live trees -- instead of fossil fuels, encouraging logging of California's forests and increasing overall greenhouse gas emissions.

These provisions are no solution to climate change and further threaten forest ecosystems and wildlife already at risk from global warming. Clearcuts and tree-burning power plants must not be allowed to become the face of California's effort to fight global warming.

I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

REDFORD, MI 48239

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Heather Riede
520 E Adele St

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, or other forms of forest clearing and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change. It is critical that the cap-and-trade rule DOES NOT encourage logging of natural forests, nor their replacement by tree plantations. Our state's efforts to fight global warming must work in tandem with forest and wildlife protection, not against it.

Sincerely,

Andrea Quong

Ms. Liz Johnson
908 Fillmore
Albany, CA 94706

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them.

The program would allow industrial polluters to avoid reducing their own greenhouse gas emissions by purchasing carbon "offset credits" -- many of which could come from forest management projects that allow clearcutting. The proposal would also allow industrial polluters to avoid greenhouse gas emissions limits by burning forest "biomass" -- including whole, live trees -- instead of fossil fuels, encouraging logging of California's forests and increasing overall greenhouse gas emissions.

These provisions are no solution to climate change and further threaten forest ecosystems and wildlife already at risk from global warming. Clearcuts and tree-burning power plants must not be allowed to become the face of California's effort to fight global warming.

I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Mrs. Melinda Burgess
10156 Wisner Avenue
Mission Hills, CA 91345

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Karen Ernst

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Ailed Rivera
Cayey
Cayey, PR 00737

California Air Resources Board
California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

I am really sad to hear that cap and trade regulations may be adopted that essentially reward clear cutting of forests in California. I have a strong need to live in a world where bio diversity is valued and protected That is the world I would like to pass on to my children. Please carefully consider the issues involved and vote to protect our forests and the rich plant and animal life that lives there.

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

California Environmental Protection Agency

Dear Chair Nichols and members of the California Air Resources Board:

As proposed, the AB 32 cap-and-trade regulation threatens California's forests and the wildlife that rely on them. I am writing to urge you to amend the proposed cap-and-trade rule to:

- 1) exclude offsets from forest management projects that allow forest clearcutting, and
- 2) eliminate the exemption from compliance obligations for forest biomass emissions.

I implore you not to make forest clearcuts and biomass plants the face of AB 32. We cannot and should not try to clearcut and burn our way out of climate change.

Ms. Judith Rosen
