Subject: RE: Documenting DGS Yield per gallon of ethanol production

Thanks. I look forward to working with you on these issues to find a solution that meets CARB's needs and is not overly burdensome for the applicants (and consultants and ARB staff that has to review).

Regards,
Logan

Subject: Documenting DGS Yield per gallon of ethanol production

Hafizur:

For the DGS yield/gallon of ethanol production, what documentation will be required?

In particular, since the calculation requires an accurate measure of the moisture in the DGS to calculate the bone dry yield, what documentation requirements will there be, if any, for the moisture?

Regards,
Logan
