

Contact: [Michelle Kinman](#), 310-621-8935

As of October 20, 2014, over eighty-five local elected officials endorse this statement:

Yes! I endorse Governor Brown's pioneering vision to place 1.5 million zero emission vehicles on California's roads by 2025. By accelerating the deployment of clean vehicles, we can clean up our air, reduce global warming pollution, improve public health, save Californians money at the pump and stimulate economic growth.
