To inspire each student to
extraordinary achievement
every day

THE ELECTRIC VEHICLE (EV) SCHOOL BUS

Twin Rivers Unified School District serves over 29,000 students. The following information benefits the Disadvantaged Community, (DAC) K-12 graders. Exposer to sustainability by way of Electric Vehicles, and the Clean Air Bus Project promotes environmental safety and health to all students who ride buses.

Our goal:

EDUCATION

- Share the Ride program with students and neighboring schools to promote the positivity and sustainability of electric school buses.
- Green-Engine (CTE) Program; two schools will have a program that teaches them green technology, and its importance in the transportation industry.
- Loan one of our Electric Vehicle (EV) buses to neighboring districts, to educate them on the advantages of a Green Fleet.
- Our children will breathe a little easier knowing that our school district cares about their future.

PARTNERSHIPS
