Message converted on the 11th AT 23:54:56. The message was sent to the
recipient's email box. The Global Warming Solutions Act is
a bill that will be signed into law by the Governor on September 16, 2006.

Global Warming Solutions Act

Since the Global Warming Solutions Act AB 32 passed here in California, we've seen how effective implementing practical climate policies can be for dramatically cutting GHG emissions. However, with record low snowfall, record high temperatures and increasing frequency of drought and wild fires, we can also see the effects of global warming at our doorstep. The Global Warming Solutions Act is a way to change that.

Thank you for releasing a strong updated Soaring Plan for implementing AB 32 going forward. I support the Global Warming Solutions Act and expanding our climate policies to encompass all major GHG polluters in the state so that we hit our 2020 emissions goals by 2020 and beyond.
