Samuel Molina 19-1-1  
CARB Testimony

PAGE NO.

ACTION NOTES

PLANNING NOTES

1 To whom it may concern:  
2 My name is Samuel Molina, I am  
3 the CA State Dir. of Mi Familia Voter,  
4 and native to Fresno, CA I currently sit on  
5 the AB 617 steering committee for Fresno  
6 and have testified against the S.A.F.E. rule  
7 and against the repeal of the Clean Power  
8 Plan.  
9

10 I write you today as someone born  
11 with asthma and has suffered an asthma  
12 attack. All + Although this plan does  
13 well to provide incentives, I am concerned  
14 about the fact that those incentives are  
15 currently un-funded, what is the plan to  
16 make sure they become funded? What  
17 will happen if they are not funded?  
18

19 In 4 children in the Central Valley  
20 have asthma, we must do more to  
21 reduce the number of children born with  
22 asthma. It seems that this plan does  
23 not go far enough to provide oversight  
24 to the oil & gas industry; so I would  
25 ask that CARB re-visit this and  
26 direct their staff to find opportunities  
27 to further reduce air pollution from  
28 the oil and gas industry.  
29

Sincerely,
