RE: Caltech Comments Regarding 05/01/2013 Workshop

Bill,

On behalf of Caltech, I'd like to thank you and the CARB staff for hosting the May 1, 2013 workshop to discuss allowance allocation to public and private universities with proven track records of early action utilizing efficient CHP. The proposed allocation utilizing the energy based allocation methodology that is consistent with the existing industrial sector methodology is fair and appropriate.

Caltech is in full support of the proposed allowance allocation. Caltech remains committed to energy efficiency and reducing our carbon footprint and will continue to be an active participant as this proposal makes its way through the rule making process.

Thank you,
