RE: Proposed Amendments to the Aerosol Coating Product Regulation

Clerk of the Board:

Plasti Dip International appreciates the opportunity to comment on the amendments to the Aerosol Coating Product regulation. These amendments are to be heard by the California Air Resources Board on September 26, 2013.

Plasti Dip International manufactures Plasti Dip®, a flexible rubber coating that is packaged in various retail containers, including aerosols.

Plasti Dip International has the following comments:

- Plasti Dip International supports the additional definitions and definition changes in the aerosol coating regulation
- Plasti Dip International supports the additional specialty categories and supports the Specialty Coating limits and the fact that CARB capped these limits to prevent future increases
- Plasti Dip International requests the board to instruct enforcement to allow the use of the 2010 table of MIR values to be utilized upon board approval

In summary, Plasti Dip International supports the amendments to the Aerosol Coating Product regulation.

Thank you for your consideration to these comments. Any questions or comments feel free to call our consultant Doug Raymond at 440-474-4999 or at [djraymond@reg-resources.com](mailto:djraymond@reg-resources.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Daniel D. Ruege", with a long horizontal flourish extending to the right.

Daniel D. Ruege  
Vice President Sales & Marketing  
Plasti Dip International
