Re: Proposed FY 2021-22 Funding Plan for Clean Transportation Incentives to be Considered at the November 19, 2021 Board Meeting - Support

Ms. Randolph and California Air Resources Board Members:

This letter is to express the San Diego County Air Pollution Control District's (SDCAPCD) support of the proposed FY 2021-22 Funding Plan for Clean Transportation Incentives. SDCAPCD appreciates the inclusion of a \$5 million allocation to launch a Clean Cars 4 All (CC4A) program in the San Diego region, which will help the region reach its clean air and climate goals. Importantly, this program will also help benefit the families and communities most impacted by air pollution and economic hardship by providing opportunities to own newer, more reliable, and energy efficient advanced technology vehicles, and by increasing access to transit and other alternative mobility options. SDCAPCD has been working with CARB staff to be prepared for program implementation as soon as possible after a grant agreement is in place and appreciates their time and expertise as we work toward creating this important program.

The SDCAPCD supports the proposed funding plan and thanks Board Member Fletcher and the Air Resources Board for this opportunity to implement a CC4A program in the San Diego region.

Sincerely,

Paula Forbis

Interim Air Pollution Control Officer
San Diego County Air Pollution Control District
