

March 8, 2013

Chairman Mary Nichols
California Air Resources Board
1001 "I" Street
Sacramento, CA 95814

Dear Chairman Nichols:

I attended the Feb 25th Cap & Trade webinar and feel that California's Resource Conservation Districts (RCDs) are the "Go To Agency" and perfect vehicle for addressing the following issues we are facing going forward:

- Water conservation;
- Reforestation;
- Urban forestry;
- Protection of natural resources;
- Fuel treatments to reduce wildlives;
- Public outreach to "Disadvantaged Communities" on natural resources (Per SB 535);
- Assist with the identification of natural resource investments and working with agencies, organizations and private landowners to manage those natural resources;
- Be an active participant on any local climate action planning groups.

We look forward to working with you and the State of California to partner on the sustainable use of our valuable natural resources.

Sincerely,

A handwritten signature in blue ink that reads "Shelli Lamb".
