RE: California Air Resources Board Proposal

Dear Dr. Coley,

I am the president and chief executive officer of the Pasadena Chamber of Commerce and Civic Association. We serve 1400 members in the greater Pasadena area with workshops, networking events, referrals, advocacy and more.

I understand the California Air Resources Board will be consolidating its operations in Southern California and relocating.

While economic impact of the relocation would be minimal for Pasadena, I am very supportive of keeping the CARB in Los Angeles County and believe a site at Cal Poly Pomona would be optimal.

Keeping employment centers and jobs in Los Angeles County is very important. I also think the location on the university campus could provide synergies and opportunities for students and faculty, as well as the CARB.

The Pasadena Chamber of Commerce is very supportive of CARB relocating to Cal Poly Pomona.

Sincerely,

A handwritten signature in blue ink, appearing to read "Paul Little". The signature is stylized and somewhat abstract.
