Comments to the California Air Resources Board on the Proposed FY 2020-21 Funding for Clean Transportation Incentives

KEEP THE WORLD ADVENTUROUS FOREVER

Forever = Good Stewardship = Electrification

Medium-Duty Electric Vehicles

First high-volume electric full-sized truck and SUV plus last-mile delivery vans

- US based California company
- US production
- Deliveries in mid 2021
- GVWR 8,500-10,000 lbs.
- Greater emissions reductions and utility

Source: Edelstein, S. (October 9, 2020). Amazon shows Rivian electric delivery vans it will use starting in 2021. Green Car Reports. https://www.greencarreports.com/news/1129894_amazon-shows-rivian-electric-delivery-vans-it-will-use-starting-in-2021

Rivian's Requests

- **Postpone or allow for higher MSRP caps** for medium-duty vehicles that are now being added to the CVRP light-duty program
- **Increase the allowed number of CVRP rebates per buyer**, equal to that of HVIP, for vehicles newly added to the CVRP
- **Provide a class 2b voucher** in line with similar class 3 and 4 heavy duty trucks
- **Eliminate or raise manufacturer and fleet caps** on HVIP vouchers; further reduce voucher amounts if necessary

Thank You!
