

Dear Members of the California Air Resources Board,

every morning I bike  
to a school garden  
in South San Francisco  
to teach youth how to  
grow their own food.

I bike for 30min behind  
large trucks heavily  
polluting the air only  
to arrive to a garden  
surrounded by even  
more pollution.

Please save my lungs  
& my food! Heena

Dear Members of the California Air Resources Board,

I am writing to you to support immediate and full implementation of the California Diesel Truck and Bus Regulation in California as it was passed in 2008. It is one of the biggest steps to date in the effort to clean up California's dirty air and protect public health.

The diesel truck industry has already received several extensions to implement this rule, leaving communities to battle diesel pollution linked to heart and lung disease, asthma attacks, cancer, and other health emergencies.

I call on you to step up and defend this rule, stop the proposed delay and remember that this regulation protects communities, keeps children out of the hospital, reduces greenhouse gas emissions, and saves lives.

Sincerely,

*DO  
SOMETHING!*

Dear Members of the California Air Resources Board,

We can wait for clean  
air, the truck rule was  
adopted when I was 5  
years ago and the situation  
hasn't changed back and  
forth. Diesel truck pollution  
is becoming hard on people  
who live near the  
routes and freight centers.  
The air smells as badly  
as ever from asthma  
as the general public.  
For men and women who  
live in the place.

Sacramento, CA 95814

Dear Members of the California Air Resources Board,

I am writing to you to support immediate and full implementation of the California Diesel Truck and Bus Regulation in California as it was passed in 2008. It is one of the biggest steps to date in the effort to clean up California's dirty air and protect public health.

The diesel truck industry has already received several extensions to implement this rule, leaving communities to battle diesel pollution linked to heart and lung disease, asthma attacks, cancer, and other health emergencies.

I call on you to step up and defend this rule, stop the proposed delay and remember that this regulation protects communities, keeps children out of the hospital, reduces greenhouse gas emissions, and saves lives.

Sincerely,

*Rose Perelope L. Lee*

Sacramento, CA 95814

Dear Air Resources Board,

I think is important to change things as soon as possible because a lot of little kids are getting sick and that unfair mostly because most of them are low income. Just because we are low income doesn't mean we are the ones that are suppost to be getting sick.

Patricia B.

Dear Members of the California Air Resources Board,

I am writing to you to support immediate and full implementation of the California Diesel Truck and Bus Regulation in California as it was passed in 2008. It is one of the biggest steps to date in the effort to clean up California's dirty air and protect public health.

The diesel truck industry has already received several extensions to implement this rule, leaving communities to battle diesel pollution linked to heart and lung disease, asthma attacks, cancer, and other health emergencies.

I call on you to step up and defend this rule, stop the proposed delay and remember that this regulation protects communities, keeps children out of the hospital, reduces greenhouse gas emissions, and saves lives.

Dear ARB,

It's important to clean  
truck pollution b/c  
we need cleaner air  
so people won't have  
health problems.  
It's not okay to wait  
to get trucks cleaned up  
b/c the longer you wait  
the more chance people would  
have to get sick.  
- Joe  
Fremont High

Dear, Air Resources Board  
It's important to clean up truck  
pollution, because the more we  
wait the more people would be  
affected and highly get asthma.  
Keeping California healthy and  
strong would keep more people  
out of hospitals, etc.  
Sincerely, Natalie R.

Dear ARB It is important to clean up truck pollution because people inhale these gases and it effects their health.

No we should not wait  
This is a serious situation  
and peoples safety and health  
is important!

Sincerely Zion Shields

Dear Resource board

You should clean up truck pollution because it's good for mother earth, and you should enforce this rule because it affects our community badly.

From, AJ

Deay ARB

It's important to clean up the truck pollution because it's affecting us. It's giving us less chances in our future to be healthy a lot of kids are developing Asthma and other people is trying to develop new gasoline that won't affect us that much.

Sincerely: Fremont High School.  
Eduardo Ramirez

Deay ARB

I think it's OK to clean truck pollution, but it's all OK to wait because some ppl can't afford it right now.

Sincerely  
Tev. K. O. W. H.

Dear ABB,

I feel that cleaning up truck pollution is important because it causes health issues. The clean up doesn't have to be immediate but it is required for healthier living.

Sincerely,  
Isabella  
D'Alessandro

Dear Air

Resources Board:

I can't wait for clean air. I have asthma. Every day even though I don't know it can bring the possibility of a flare up. An asthma flare up means a burning sensation in my body that hurts me or anyone who has asthma for that matter. I want people to understand that pollution is no joke so we need to have clean air not just for me but for future children.

William Varner  
Fremont High School

- Dear Air Resources Board,:

Well Apparently my mother & d  
little brother have asthma, & d  
in my perspective we need clean  
air, for other families not to  
suffer this problem.

Sincerely:

Jani. Morales

Dear Air  
Resources Board,

I live very close to truck routes  
And I think its unfair that my  
people have to suffer from the  
polluted air due to moving trucks,  
we need clean air please.

Sincerely, Su'e  
Tangabau

I live near truck routes and my siblings have asthma, just learning from this I learned how big of an impact they make. I can't wait for the day when we have clean air. I think it's time to make change for the future and for the better of future children.

Jon Castillano  
Oakland, California

We are too young  
and we cannot keep  
being hospitalized.

Keep our air clean. /

-Angel from Oakland

Medical Bills are expensive,  
we cannot afford to  
send our friends, kids and  
siblings to the hospital.

Keep the rule!

- Margie from Oakland

Dear Air Resources Board:

I work near the 880 freeway  
& while im working I smell  
the air not knowing it's dirty  
air. I don't want to catch Asthma,  
nor I want anyone to get it.  
Please, I want to have clean air!

Sincerely,  
Griselda Ch.

Dear Air

Resource board:

My name is Johnson Vo I am a 12<sup>th</sup> grader at Fremont Highschool. I live around the 880 freeway and I do notice the diesel pollution coming from the trucks. I would want the area where I live to not have trucks that is contributing to the pollution more then it is now. If these trucks admit less or close to none that would be a huge help for me & the community. I want this proposal to be pushed into a law. Do not push this back anymore then it needs to be.

Sincerely, Johnson Vo  
12<sup>th</sup> / Fremont High

APRIL 8, 2014

Dear, AIR RESOURCES BOARD:

I can't wait for clean air. I live near the 880 freeway and I can smell diesel truck pollution and I also see trucks passing by my Avenue. There's no more time for excuses for delays. It's time for trucks to stop polluting all over California.

Sincerely,

Jennifer Zarate  
12<sup>th</sup> / Fremont High School

Dear Air Resources Board:

We WANT CLEAN AIR FOR everyone.

I know many people that live near the

880 and have family members with

Asthma and I want clean air for everyone  
because that could be one of my  
family members!

EVERYONE DESERVES THE  
EQUAL RIGHT TO CLEAN AIR.

Sincerely,

Jaqueline Embrie  
Fremont High  
School

Dear,  
Air Resources  
Board.

It's important to stop truck pollution because it causes innocent people to get asthma. It's not ok to wait to enforce this rule because more people will get asthma but government should take control to help get filters for the truck.

- Fehoko Fastusia

Dear Air Resources Board,  
PLEASE DON'T DELAY!  
WE WANT CLEAN AIR TODAY!  
DON'T NEGLECT THE HEALTH OF  
THE FOLKS WHO SUFFER DAILY  
FROM THIS PROBLEM... KEEP UP  
CA'S DIESEL TRUCK + BUS RULE!

SINCERELY,

JOHN VILLANUEVA  
NEPOMUCENO, MA  
FREMONT H/S  
OAKLAND, CA

dear APB:

It is important to clean up  
truck pollution so that our  
people can stop getting  
sick of asthma.

It is not okay to wait  
because too many people are  
getting sick and needs to

stop NOW!

Jan Aguilar  
Fremont High
