- **How long have you lived in the community, your affiliation to South Sacramento, how long have been with the Steering Committee, and your role in the committee as outreach chair.**

I've lived in South South Sacramento for decades. I grew up in Oak Park and the Fruitridge area and attended Fruitridge Elementary School and Sacramento High School. I raised my children in Meadowview for 13 years, and in old Florin Towne area for about 16 years and I currently have lived in North Laguna Creek since 2008 (16 years)

I have served on the AB617 Soith Sacramento-Florin Air Quality Steering Committee since its inception 5 or 6 years and I am a cochair of the Outreach Subcommittee.

- **Whether you support the recommendation to transition to develop a CERP and why it is important to you as a community member**

"I strongly support the development of a CERP to reduce air pollution. As a community member, I've experienced firsthand the negative impacts of poor air quality on my health and the health of my family. A CERP is essential for creating a healthier and safer environment for everyone."

\* "Clean air is a fundamental right. By investing in a CERP, we're investing in the long-term health and well-being of our community. I'm eager to participate in this process and contribute to a cleaner future."

- **How the CSC members and the outreach committee have reached out to expanded boundaries areas, and neighborhood associations and support monitoring in those new areas.**

We recently expanded our boundaries to support monitoring in additional areas not included on our original CAMP boundaries that have high levels pollution.

- **Is there something you are particularly proud of that we've achieved?**

We completed phase 1 and phase 2 of our CAMP placed our phase 3 mobile monitor at Fern Bacon Elementary School.

- **Please consider sharing your experience with Air District staff -interactions, etc.**

\* "The Sacramento Air District has been a valuable partner in our efforts to accomplish our CAMP requirements]Their staff is knowledgeable and responsive, providing essential support and guidance."

\* "I have a strong, collaborative relationship with the Sacramento Air District. Their expertise and willingness to share information have been instrumental in our success."

\* "My interactions with the Sacramento Air District staff have been consistently positive. They are knowledgeable, accessible, and committed to assisting us in meeting regulatory requirements."
