RE: Electrify America's Cycle 3 Investment Plan

Dear California Air Resources Board Members:

I would like to express support for the Electrify America's Cycle 3 California ZEV Investment Plan. This \$200 million investment in California over 30 months will bring the state closer to achieving its emissions goals to combat climate change and improve air quality by transitioning to zero emission transportation, including in transit and heavy-duty applications.

The Cycle 3 ZEV Investment Plan will expand access to zero emission vehicles (ZEV) in California, by further building out ultra-fast charging infrastructure in metropolitan areas and along highway corridors, supporting transit and medium- and heavy-duty fleet charging, and continuing to invest in brand neutral education and awareness efforts.

Among other activities identified in the plan, Electrify America will invest \$25 million in a Green City program in the Long Beach-Wilmington community, home to the nation's busiest port complex and served by a fleet of more than 18,000 drayage trucks. This targeted investment to support electrification of transit and medium and heavy-duty vehicles in this predominantly disadvantaged and low-income community will advance the Air Resources Board's priorities to transition buses and drayage trucks to ZEVs, and reduce pollution in a community that is classified as extreme non-attainment under the Clean Air Act.

For these reasons, I request your favorable consideration.

Sincerely,

A handwritten signature in black ink that reads "Patrick O'Donnell". The signature is fluid and cursive, with the first name "Patrick" and last name "O'Donnell" clearly legible.

Patrick O'Donnell
Assemblymember, 70th District
