

Re: Notice of Public Hearing To Consider Proposed Amendments to the Red Sticker Program for Off-Highway Recreational Vehicles

Due by April 22, 2019

To: Clerk of the Board

Established in 1968, the Sacramento Pacific International Trials Society (P.I.T.S.) is an off-road motorcycle trials riding and competition club comprised of well over two-hundred active individual and family memberships. P.I.T.S. is the largest motorcycle trials club in Northern California, and Nevada, and has been for over five decades.

The Club Board of Directors would like to extend its full support for AMA D36's submittal on 4/11/2019 entitled "OHRV2019 - Competition Community Stakeholder Comments on Red Sticker Process".

Sacramento PITS members ride from Vintage to cutting edge competition trials bikes and the majority of its membership will be impacted by the Red Sticker Program changes. We want to ensure that CARB takes into account all aspects of competition trials riders – including both at events and related practice - along with all other competitive motorcyclists. We feel the AMA D36 proposal builds a foundation to move forward on.

The Sacramento PITS Board of Directors
