## Re: 15-DAY CHANGES TO THE PROPOSED ADVANCED CLEAN TRUCKS REGULATION

Dear Mr. Corey:

The ports of Los Angeles and Long Beach (“Ports”) appreciate the opportunity to comment on proposed amendments to the California Air Resources Board’s (CARB) Advanced Clean Trucks Regulation (“Rule”). We believe the proposed amendments to the Rule will help to increase the availability of heavy duty Class 7/8 zero emissions trucks in the South Coast Air Basin and Statewide. Availability of these trucks will be essential for the state to achieve their greenhouse gas reduction goals and for the Ports to achieve the goals established in the San Pedro Bay Clean Air Action Plan. Therefore, the Ports are supportive of the proposed Rule.

The Ports look forward to continued collaboration and coordination with CARB staff on implementation efforts to reduce emissions from heavy duty trucks.
