Subject: ACT Clean truck rule
Date: Thursday, May 28, 2020 8:49:48 PM

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Please enact and enforce an Advanced Clean Truck (ACT) rule that requires that by 2030, at least 30% (preferably more) of the new trucks on California's roads are all electric, zero emission vehicles. As the Board should be aware, 30% by 2030 will not only significantly reduce our carbon footprint and criteria emissions (particularly in low income communities) but provide new employment and investment opportunities here in California while saving the trucking industry billions in avoided fuel costs. Besides fighting climate change this rule will also significantly reduce PM2.5 particulates from diesels which are a well-known cause of excess human morbidity and mortality.

Sincerely,
Dr. Stephen Rosenblum
Palo Alto
