My name is jessie parks, im resident and student of riverside and i support the advanced clean truck rule because i live in community surrounded by freeways, that already makes it hard enough to breathe. during a time of a respiratory virus CARB MUST take action and put the betterment of its communities lives BEFORE ANYTHING ELSE. Communities shouldn't be overflowing with warehouses, freeways, ports, and other heavily polluting good services. the normal for us shouldn't be getting boxed in by dirty diesel powered semi trucks on our way to school. California has always been a leader in the fight for environmental justice and a pioneer in the advancement of technology so i ask CARB to continue to uphold its values by approving an advanced clean truck rule! PLEASE ACT for your community because the time is NOW
