

Dear Chair Randolph and Members of the Board,

We're calling on the Air Resources Board to make the draft Advanced Clean Cars program standard stronger. Transportation is a leading source of air pollution that harms our health and threatens our climate. To meet our clean air and climate goals, we need at least 45% ZEV sales by 2026 and 75% ZEV sales by 2030. We urge you to strengthen the proposal and accelerate the market for electric vehicles.

Dear Chair Randolph and Members of the Board,

We're calling on the Air Resources Board to make the draft Advanced Clean Cars program standard stronger. Transportation is a leading source of air pollution that harms our health and threatens our climate. To meet our clean air and climate goals, we need at least 45% ZEV sales by 2026 and 75% ZEV sales by 2030. We urge you to strengthen the proposal and accelerate the market for electric vehicles.

Dear Chair Randolph and Members of the Board,

We're calling on the Air Resources Board to make the draft Advanced Clean Cars program standard stronger. Transportation is a leading source of air pollution that harms our health and threatens our climate. To meet our clean air and climate goals, we need at least 45% ZEV sales by 2026 and 75% ZEV sales by 2030. We urge you to strengthen the proposal and accelerate the market for electric vehicles.

Dear Chair Randolph and Members of the Board,

We're calling on the Air Resources Board to make the draft Advanced Clean Cars program standard stronger. Transportation is a leading source of air pollution that harms our health and threatens our climate. To meet our clean air and climate goals, we need at least 45% ZEV sales by 2026 and 75% ZEV sales by 2030. We urge you to strengthen the proposal and accelerate the market for electric vehicles.

Dear Chair Randolph and Members of the Board,

We're calling on the Air Resources Board to make the draft Advanced Clean Cars program standard stronger. Transportation is a leading source of air pollution that harms our health and threatens our climate. To meet our clean air and climate goals, we need at least 45% ZEV sales by 2026 and 75% ZEV sales by 2030. We urge you to strengthen the proposal and accelerate the market for electric vehicles.
