RE: Advanced Clean Cars II Rule

Dear Members of the California Air Resources Board:

We, the undersigned congregants of Montclair Presbyterian Church in Oakland, California, are extremely concerned about the climate emergency which poses a grave threat to all human beings—especially the most vulnerable among us—and to all Creation.

Transportation is a dominant contributor to greenhouse gas emissions in California, and as such, gasoline vehicles must be phased out as quickly as possible.

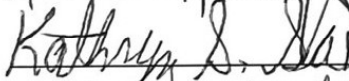

The Advanced Clean Cars II Rule can be an effective tool to do so, but must be made stronger by requiring the following:

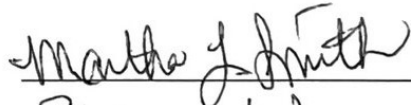

- 100% zero-emission vehicle sales by 2030—not 2035,
- 7% annual reduction in pollution from gasoline cars in the interim, and
- mandatory equity requirements so that EVs become accessible to underserved communities.

Do not miss this critical opportunity to help avert the worst effects of climate change. Please adopt a stronger version of the rule that responds proportionately to the scale of the task we face.

Yours sincerely,

Congregants of Montclair Presbyterian Church
