# Petition to Support a Clean Freight System and Healthy Air for All Californians

December 2014

[ Union of  
**Concerned Scientists**

**To: Governor Brown and the California Air Resources Board**

**California's freight system relies on diesel trucks, trains, and ships that emit large amounts of diesel particulate matter and smog-forming nitrogen oxide emissions. This pollution harms human health and contributes significantly to global warming.**

**California must transform our freight system to the cleanest fuels possible to provide clean air, a safer climate, and improved health for all of its communities, and especially those communities most impacted by ports, rail yards, and other pollution hot spots.**

**I urge Governor Brown and the California Air Resources Board to take all necessary action, including enforceable standards, to create a truly clean and equitable freight system in California that cleans up the air for all Californians.**

1. Jeff Abare, Fair Oaks
2. Scott Abbott, Santa Barbara
3. Bonnie Abel, Sunland
4. V Abel, Oakland
5. Lowell Abellon, Los Angeles
6. Donzaleigh Abernathy, Los Angeles
