With respect to item 18-2-4, MPO presentations -  
and as an aware, responsible, and interested citizen,  
I do not agree with Board member positive  
comments regarding the staff presentation as  
related to the use of undefined abbreviations,  
use of unrelated comments, and general  
lack of understandability of the report by  
the public.

A comment was made by one of the MPO  
CEOs in regards to "the general public does  
not understand transportation funding." The  
Board's staff report did not include an explanation  
of MPOs, their roles, with respect to the Board, or  
why they are important. I understand the  
Board members may know, but the public does not.  
Please limit, or at least define the abbreviations  
used and offer a short, clear, and relevant  
explanation of these important bodies.

Thank-you  
Keri Thed
