RE: Climate Resolve Supports Electrify America's Cycle 3 Investment Plan

Dear California Air Resources Board Members:

Climate Resolve firmly supports Electrify America's Cycle 3 California ZEV Investment Plan.

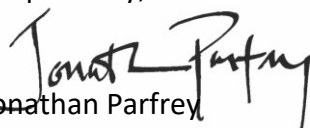

Acknowledging that climate change is affecting California today, Climate Resolve believes that we must invest quickly in limiting greenhouse gas emissions.

Electrify America's \$200 million investment will help California transition to zero emission transportation, aiding in curbing climate change.

We applaud the focus on helping low-income communities, especially the Long Beach-Wilmington communities, home to the nation's busiest ports. The transition of medium and heavy-duty vehicles in these communities will advance CARB's air quality and climate priorities.

We respectfully urge you to find that Electrify America's Cycle 3 California ZEV Investment Plan is consistent with requirements at your June 24 meeting, in order not just to keep California on the forefront of, but a leader in, the fight against climate change.

Respectfully,

Jonathan Parfrey
Executive Director
