**Re: Comment on Proposed Advanced Clean Cars II Regulations**

Dear Chair Randolph and Members of the Board:

ChargePoint thanks the Board and Staff for their work to develop the proposed Advanced Clean Cars II regulations and the opportunity to provide comments at the August 25, 2022 Board Meeting. ChargePoint is supportive of the Advanced Clean Cars II Regulations.

We would like to thank the board members and staff members with whom we discussed Subsection 1962.3 related to a charging cord to be provided as standard equipment for battery electric vehicles beginning in model year 2026. Discussions with board members and staff have provide important perspective and clarifications that supplement ChargePoint's understanding of Subsection 1962.3.

ChargePoint looks forward to working with board members, staff, and stakeholders in the coming years to ensure that the goals of convenient and accessible charging are achieved in accordance with the critical product and installations standards contained in the current and upcoming versions of UL specifications and the National Electric Code.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Wilson".
