DOCKET: **Proposed Advanced Clean Trucks Regulation - act2019 -COMMENTS**

Dear ARB staff:

We have already submitted organizational comments on the above proposed rule. Please find attached petitions signed by California residents in support of a stronger Advanced Clean Truck Rule. These signatures were collected by 350 Bay Area volunteers between Nov.15 and Dec.1, 2019.

Thank you for your attention,

A handwritten signature in cursive script that reads "Elena Engel".

Elena Engel
Co-chair, Transportation Committee, 350BA

Petition to California Air Resources Board (CARB)

We Need Stronger Targets for Zero Emission/ Electric Trucks

California must clean up our air and meet its climate goals. We can't wait for business to solve the problem—state policies are needed to get more **electric trucks** on the road faster. I urge you to support a stronger **Advanced Clean Truck Rule** that guarantees at least **15 percent of California's trucks are electric by 2030**. (11/19)
