

Mac Farrell

Dear California Air Resources Board,

Since the Global Warming Solutions Act, AB 32, passed here in California, we've seen how effective implementing practical climate policies can be for dramatically cutting GHG emissions.

However, with record low snowfall, record high temperatures and increasing frequency of drought and wild fires, we can also see the effects of global warming at our doorstep: The Global Warming Solutions Act is a way to change that.

Thank you for releasing a strong updated Scoping Plan for implementing AB 32 going forward. I support the Global Warming Solutions Act and expanding our climate policies to encompass all major GHG polluters in the state so that we hit our GHG reduction goals for 2020 and beyond.

Sincerely,

The following 2,065 undersigned citizens.
