Subject: Proposed Amendments to the California Consumer Products Regulations 6/25/08; Board  
Agenda Item # 08-6-5

Dear Board Members:

Four Star Chemical is a Private Label Filler of commercial products. We provide our customers with a wide variety of products for the specialty consumer market place.

Four Star Chemical appreciates the opportunity to comment on this regulation. In conversation with staff, we can support the removal of "threaded pipe sealants and gasket makers" from the "Sealant or Caulking Compound" definition. As originally written this category would have banned an aerosol form of one of our products. We appreciate the staff review of this issue and their willingness to modify the regulation.

Thank you in advance for your consideration to this issue. Any questions or comments feel free to contact me at [julrich@fourstarchemical.com](mailto:julrich@fourstarchemical.com) or reach me at 323-266-7111.

Respectfully submitted,

President

**Jerry Ulrich**
