Subject: Proposed Amendments to the California Consumer Products Regulations  
6/25/08; Board Agenda Item # 08-6-5

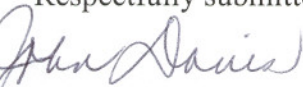

Dear Board Members:

Claire Manufacturing and Plaze Incorporated, collectively doing business as PLZ Holding, have been leaders in the aerosol industry for over 50 years. PLZ Holding is a major manufacturer of Aerosol Glass Cleaners. We support the 10% VOC limit for Aerosol Glass Cleaners (effective 12/31/2012) and continue to look for new ways to exceed the limit.

With respect to the definition of a Motor Vehicle Wash, we simply cannot support this definition, as it would effectively ban the aerosol form of the product. As currently written the definition would ban the aerosol form of Motor Vehicle Wash. We request that the ARB modify the wording to exclude aerosols from this category.

Thank you in advance for your attention to this issue. If there are any questions or comments please feel free to contact me at

Respectfully submitted,

John Davis  
Vice President of Technical Services
